

Dashboard

Dashboards provide more insights than reports as they combine the data from many reports and show a summarized result. Looking at many reports at a time gives the flexibility of combining the results from them quickly. Also, summaries in dashboards help us decide on action plans quicker. The dashboards can contain charts, graphs and Tabular data.

1)Create A Dashboard

- 1.Click on Dashboards tab from the “Sales App” application.
- 2.Click on new dashboard
- 3.Give name- Sales App Dashboard
- 4.Click create
- 5.Give your dashboard a name and click on +component.
- 6.Select the New Sales orders with Customer Report which you created.
- 7.For the data visualization select any of the chart, table etc as your wish.
- 8.Click add
- 9.Click save
